A proposed Settlement has been reached in a class action lawsuit against Toyota Motor Sales, U.S.A., Inc., Toyota Motor North America, Inc. and Toyota Motor Corporation (together, "Toyota Defendants") alleging that certain vehicles are equipped with hybrid system power cables to the vehicles' rear motor generators affixed with connectors ("MGR Connectors") that are defective because under certain conditions they may corrode and/or otherwise fail prematurely. Toyota Defendants deny all the allegations in the litigation and believe that the claims asserted against them are without merit.

Who is Included? Records show you are a member of the Settlement Class, defined as: a person, entity, or organization who owns or owned, purchase(d) or lease(d) a Subject Vehicle that was distributed for sale or lease in any of the fifty States, the District of Columbia, Puerto Rico, and all other United States territories and/or possessions. A list of the Subject Vehicles can be found at www.ToyotaConnectorSettlement.com.

What does the Settlement Provide?

Extended Warranty Coverage: The Settlement provides extended warranty coverage for the HV Floor Under Wire Harness and Rear Traction Motor Cable for a period of ten (10) years / unlimited miles (i.e. no mileage limitation for a maximum of ten years). You must take your vehicle to an authorized Toyota or Lexus dealer by **September 30, 2028** (except for the Sienna model vehicles), for a technician to perform an inspection to obtain the extended warranty coverage and determine whether the vehicle has any of the related conditions. **You do not need to submit a Claim Form to receive the Extended Warranty.**

Cash Reimbursement for Out-of-Pocket Expenses: You may submit a Claim Form with documentation to receive reimbursement if you paid out-of-pocket costs in connection with a prior repair of the MGR Connector, and/or out-of-pocket costs related to towing, storage, and reasonable rental vehicle costs. The deadline to submit a Claim Form for reimbursement is **March 27, 2028**.

Other Options. If you do not want to be legally bound by the Settlement, you must submit an opt-out request, **postmarked** by **January 4, 2027**. If you do not opt-out, you will give up the right to sue and will release the Toyota Defendants and Released Parties from the legal claims in this lawsuit. If you do not opt-out, you may object to the Settlement and/or Application for Attorneys' Fees, Costs, and Service Awards by **January 4, 2027**. The Long Form Notice on the Settlement Website explains how to opt-out or object. If you do nothing, you will be bound by the Settlement and any judgments and orders. The Court will hold a Final Approval Hearing on **February 25, 2027**, to consider whether to approve the Settlement, Class Counsel's attorneys' fees in an amount up to 8% of the settlement value to the Class, plus expenses, and service awards for the Class Representatives in the amount of $5,000 each. The Application for Attorneys' Fees, Costs, and Service Awards will be filed with the Court at a later date, and will be available on the Settlement Website. Toyota, and Class Members, may object to Class Counsel's ultimate request for attorneys' fees and costs. Toyota does not endorse Class Counsel's position on the valuation amount of the settlement or that Class Counsel is entitled to a percentage of the value of the settlement. You or your lawyer may attend and ask to appear at the hearing if you object, but you are not required to do so.
